MEDICINAL.

JUST IN TIME.

A motorman in Chicago ran his car onto the approach of an open bridge but stopped it with the fender actually overhanging the gulf below. He wouldn't want to repeat the experiment because the chances are that he'd never again have the same good fortune.

Once in a while some one who has traveled to the very edge of the danger line of ease stops just in time to save his health. But the majority of

the majority of people goacross the line, and slight symptoms of indigestion grow to disease of the stomach, involving the other organs of digestion and nutrition. Indigestion and other forms of stomach "trouble" are perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It strengthens the whole body by enabling the perfect digestion and assimilation of food.

KILLED BY LIGHTNING.

The first flash of lightning in an electrical storm which passed over the vicinity of Swedesboro, N. J., yesterday afternoon, struck and instantly killed Mrs. Sarah Ann Turner, wife of Plummer L. J. Turner, a young farmer living just outside of Swedesboro. Mrs. Turner, seeing the storm approaching, ran out to gather up a lot of little chickens.

DIRECTO She had just passed through an open shed and was standing about eight feet from a large tree when the bolt struck the tree, ran down the trunk and, glancing off, struck and killed her instantly. George Lard, a lad employed off the farm, was knocked senseless, but soon recovered. It is supposed that a scythe hanging in the tree attracted the lightning. The sun was shining brightly at the time and the rain did not come for sometime afterward. Mr. and Mrs. Turner had been married less than two The sun was shining brightly at years and their only child died suddenly

Leaped from Brooklyn Bridge.

In Hudson Street Hospital, New York, is Philip Krantz, 30 year Ad, an began. engineer, apparently none the worse for a dashing leap he made yesterday afternoon into the water from the middle of the Brooklyn bridge. Although the police have made him a prisoner, charged with attempted suicide, he declares that he made the jump merely to "see how it felt." When he struck the water he disappeared in a cloud of spray, but in a few moments he rose to the surface and, after shaking the water from his head, struck out to swim for the shore. He headed for the New York, New Haven and Hartford Railroad pier, which is directly south of the bridge, and when he reached the end was dragged out by two freighthandlers. None could be found who saw him leap except Harry Lange, freighthandler on the railroad James, a freighthandler on the railroad body between two girders and, after hanging suspended for several moments, drop, feet first. In this position, James says, Krantz struck the water. He was hurried to a hospital, where a physician said that except for shock he had not sustained any injuries.

A Tribute to the Japanese.

A Russian officer who was wounded in the battle at Vafangow (Telissu) told a correspondent recently that the losses on both sides were severe. He placed the Russian casualties as at least 7,000. He says no soldiers in the world could withstand the Japanese as they have been fighting lately. Their artillery fire, he claims, is marvelously effective.
The Russians fought stubbornly, but
were unable to withstand the enemy's
dashing persistency. Several hundred
wounded Russians have been sent north wounded Russians have been seek north owing to a lack of hospitals and surgeons. All the available transportation has to be used for supplies at the expense of the sick and wounded. The Japanese buried most of the Russian dead after the battle. It is estimated on information obtainable that the Japanese force moving northward is 70,000 strong with 90,000 men in the aggregate engaged in the operations at Port Arthur. Several Japanese spies have recently been captured a few miles south of Niuchwang. The Russians are becaming more vigilant, and are watching newspaper messages closely.

Englishman's Opinion of World's Fair.

The Manchester, Eug., Dispatch of yesterday quotes a "gentleman who has just returned from St. Louis" as giving just returned from St. Louis' as giving an appalling description of the exposition city since the opening of the Wo.ld's Fair there. The exhibition, he says, has attracted all the cleverest crooks of both sexes there. Visitors disappear unaccountably. Robbers and murderers are splendidly organized. He continues: 'It is useless to expect the American police to trouble themselves with such trifles. A shrug of the shoulders is their only response to complaint or their only response to complaint or charges. The city holds a large number of buildings which are but flimsily con-structed boxes. The rooms resembles lockers, and the meals are wretchedly poor. The waiters serve in their shirt sleeves, smoking, chewing and spitting over the heads of the diners, though with such wonderful accuracy that accidents NG, GUTTER-VE REPAIR-stranger to see the town is to join the
